**Former Transit Directors: Bud Titsworth, Jim Hood**

Jim and Bud gave an overview of the recent history as Westport Transit Directors. They stated that many studies, focus groups, and marketing campaigns had been effected before and their view was that there are only so many people who will take the transit....no matter what effort is expended. Only people who need the service will use it and that is that. The CTC thanks Bud and Jim for their insight and service as Westport Transit Directors.
