

Westport Citizens Transit Committee Minutes

February 27, 2013

Meeting Minutes:

Jennifer Johnson, co-director of the Westport Transit District, informed the CTC that the WTD's request for three thousand dollars to be used for signage at the Saugatuck and Greens Farm train stations had been approved. This signage would promote using the commuter shuttles to get to and from the stations. Each station is to receive a total of three signs: two 4' x 10' signs to be displayed outside the stations, and one smaller sign to be displayed inside each station.

Jennifer also informed the CTC of the need for marketing the Westport Transit District to the public, of explaining what it offers to the citizens of Westport. For example, the WTD provides more than shuttle services to town residents. In emergency situations (such as tropical storms/hurricanes), the shuttles are used to assist in evacuations. For more information about what Westport Public Transit has to offer, members of the community can access the information at westportct.gov under the 'Residents' tab.

The CTC said farewell to ex-officio member Terry Giegengack, who was leaving Westport in order to accept a new position in Fairfield.
