To whom it may concern,

I would like you to consider protecting mature trees in our town. They add character, beauty, privacy and a sense of place to our town as well as neighboring properties. Mowing them down to develop lots is a disservice to everyone, including the future owner of the property being built. As a homeowner, and recent real estate buyer, I can say first hand that a property w trees is more attractive to all involved. Not to mention the numerous environmental reasons to stop the practice of clear cutting lots.

Thank you for your consideration.
