1. Farm Report

Wakeman Town Farm's bee team harvested a large batch of honey from hives tended on the Farm. Approximately 400 pounds of honey was extracted from the hives resulting in some 15 gallons of useable honey much of which will be bottled and available at our farm stand this summer.

The WTF Farm Stand continues to do well, showcasing our harvest as well as drawing new families to the Farm. Our gardens are in full swing supplying most of the produce and flowers available at the farm stand this season. The farm stand is open from 9am – 1pm every Saturday and volunteers are always welcome.

2. Harvest Fest

Wakeman Town Farm is hosting its major annual fundraiser, Harvest Fest, an evening of food, wine and fun on Saturday, September 10, 2022 at the farm. This year's party is being reimagined with a "stations" dining experience and an on-line auction available in advance of the event.
