WESTPORT HISTORIC DISTRICT COMMISSION APPLICATION FOR CERTIFICATE OF APPROPRIATENESS (CA)

Application is hereby made for the issuance of a Certificate of Appropriateness under the Historic District Ordinance of Westport, Connecticut, enacted pursuant to the enabling authority contained in Chapter 97A, Section 7-147d and 147s, as amended, of the General Statutes of Connecticut.

SECTION 1 (To be completed by the Applicant):

Address of proposed work: 67 Kings Hwy N. Westport, CT

Owner: Lisa d PAUL LENIHAN

Phone: 203-520-1566 Email: pllenihan@gmail.com

Agent/Contractor: Siladi Builders

Address: PO Box 2142 Westport CT 06880

Phone: 203 858 0565 Email: siladibuilders@gmail.com

Anticipated date of completion: Summer 2023

Paul d. Lenihan
Owner's Signature (Application must be signed) Date 9-23-2022
9/27/22

SECTION 2 (To be completed by the Zoning Enforcement Officer)

- Appears to comply with regulations
- Appears not to comply with regulations
- More information needed

Need variance for setbacks + Coverage
Signature of Zoning Enforcement Officer indicating preliminary review of compliance with zoning regulations.

SECTION 3 (To be completed by the Historic District Commission)

Date of Public Hearing: _____

- Certificate of Appropriateness APPROVED
List any conditions or modifications:

- Certificate of Appropriateness DENIED
List reasons for denial:

Signature/Chair, WHDC Date

After approval has been obtained from the Historic District Commission, work cannot commence until proper zoning and building permits have been obtained from the Planning and Zoning and Building Departments.

SECTION 4 (To be completed by the Historic District Commission)

FINAL APPROVAL

Signature/WHDC: _____ Date of Site Inspection: _____

September 9, 2022

Paul and Lisa Lenihan
67 Kings Highway North
Westport, CT 06880

Dear Paul and Lisa,

Thank you for the opportunity to present you with this proposal for the Scope of Work outlined below. This scope is intended to assist you in the development of a design for the new detached garage and accessory dwelling unit planned for your property at 67 Kings Highway North, as well as the preparation of the construction documents you will need to obtain bids from capable contractors and permits from the Town of Westport.

Per our discussions thus far, the project will be comprised of a two-car garage (+/- 22'x29') with a studio-like apartment above (main room, kitchenette and bathroom with laundry). The intended aesthetic will be along historical lines (shown in some of the pictures that you have provided to our office), as the property exists within a town district that requires architectural review.

It is our office's understanding, as of this proposal, that you have met with the appropriate town agencies and have received at least tentative permission to construct this outbuilding, subject to architectural review.

Primary Scope of Work

Phase 1 - Working Drawings

- Assess the program requirements, making alterations as necessary to those established in the Pre-Contract Phase
- Prepare working drawings to establish a mutual understanding of the project scope
- Review of the drawings with client

Phase 2 - Design Development

- Evaluate program and scope changes established in the Preliminary Design Phase
- Prepare second stage design drawings to address historical aesthetic and layout/space functionality issues as they relate to the new second-floor space
- Outline applicable notes and specifications required by the town
- Review of documents with client

Phase 3 - Engineering

- Prepare all structural engineering work product necessary to meet the current State Building Code of Connecticut and to satisfy the town's requirements for obtaining a building permit

Phase 4 - Construction Documents

- Evaluate program and scope changes established in the Design Development Phase

LENIHAN

67 Kings Hwy N

Demolition of existing 2 car garage

The existing 2 car garage will be taken down and removed from premises, the block foundation and blacktop floor will be removed and prepped for install of new footing, foundation and slab for proposed 22' deep by 29' wide by 22'-8" high 2.5 car, 1.5 story garage

Date of Plan:

Architect:

2 Car Garage:

Excavate for new garage walls 42" deep to frost line, as per code and build footings. Once footings are poured, build walls out of block and come out of grade approx. 8". Compact the center and add 4" of crushed stone and compact again. Pour 4" slab with pitch towards the doors, for drainage. Dig trench to main house, for gas, plumbing, water and electric. Run conduit for electric and run new 3" PVC for drain and new gas line. Frame new garage according to future plans. Exterior of garage will be zip plywood with zip tape on seams along with roof. Install windows and trim using 5/4 x 4 PVC and install Hardie board shingle siding. Install roof. Install PVC trim around new garage doors to prep for garage doors. Install sub panel in garage for electric and wire new garage and apartment space above including kitchen, bathroom, living room and bedroom. Run water lines and drain for bathroom with shower stall, toilet and sink, kitchen sink and dishwasher and ice maker line. Install ducted HVAC split unit in space with condenser outside. Once all roughs are complete and inspection is passed, insulate entire space using closed cell spray foam insulation. All exterior walls will be insulated and ceiling of garage. Install 5/8" fire code sheetrock in garage and 1/2" sheetrock in space above. Install interior doors and trim with casing of owners choice.

Not included to be provided by owner: permit costs, plumbing fixtures, tile material, countertops, and painting (can recommend a great painter)

Inland Wetland & Watercourse and Waterway Protection Line Ordinance Permit Determination

Project Address: 67 Kings Hwy North

Project Description: Demolish Existing Detached Garage and Replace with Accessory Dwelling Unit

(For Internal Use Only: P&Z Department to send transmittal Yes No)

I. A Conservation Department Permit Not Required for the following reason(s):

1. No Wetlands or Watercourses on site or within 50' of property line as determined by a letter from soil scientist.
2. No wetlands or watercourses present as determined by GIS research/file research and or inspection by technical staff.
3. No permit required for this activity. A wetland permit is or may be required for any future work, which may include flagging of the wetland.

II. A Conservation Department Permit IS REQUIRED for the following reason(s):

1. Wetlands on property **flagged** by soil scientist.
2. GIS research/site visit by technical staff confirmed wetlands or watercourse onsite.
3. Site Inspection Conducted/GIS research– No Wetlands on property but within 50 ft. of property line.
4. Project eligible for **staff-level approval. (AA)**
5. Project requires **Conservation Commission** review and approval. **(Hearing)**

III. WPLO Determinations:

1. **Property Outside WPLO** jurisdictional boundary.
2. **Project Outside WPLO** jurisdictional boundary but on the property. **Conservation Department Permit Required. (WPL/E)**
3. **Within WPLO** jurisdictional boundary. **Conservation Commission & Flood & Erosion Control Board Review Required. (Hearing)**
4. **Within WPLO** jurisdictional boundary, but no permit required for **THIS** activity. A WPLO permit is or may be required for any future work.

CONTINUATION SHEET

Item Number: _____ Date: October 2011
PAL, Pawtucket, RI 02860

67 King's Highway North, Westport, CT

Interrelationship of building and surroundings:

The building is sited on a sloping lot on the west side of Kings Highway North. It is set back from the road and faces east. Vegetation consists of bushes, evergreens and deciduous trees scattered around the yard and along the perimeter. A wood fence runs from the corner of the house to the south boundary partially obstructing views of the property. A driveway north of the house is edged by a fieldstone retaining wall leads to an attached carport.

Other notable features of building or site (Interior and/or Exterior):

The building is a two-story, four-bay-by-three-bay, Federal style residence. The asphalt shingle-clad, side-gable roof has a brick chimney off-center at the ridge. The walls are clad in clapboards and rest on a stone foundation. The primary entrance is located off-center on the east (facade) elevation and contains a wood panel door with a storm door and a rectangular transom. Window consist primarily of six-over-six, double-hung replacement sash. A one-story, two-bay carport is attached to the west elevation by a breezeway. The house is relatively intact. The full-width porch on the facade was removed ca. 1940. Minimal alterations include the replacement of some exterior materials and the replacement of the windows within the late twentieth century.

Historical or Architectural importance:

The National Register nomination for the Kings Highway Historic District lists the construction date between 1766 and 1776 by Carter Hickock. The Westport Historic District files record David Lord as the next owner of the property. It is also recorded that Captain Joseph Nash purchased the property ca. 1864. The property was sold to Charles Elwood, a farmer, in 1864, who is still listed as the resident in the 1927 town directory. Elwood remained in the house until his death in the early 1940s, after which the property was transferred to Louise M. Elwood. In the 1960 directory, the house is listed as vacant, and in 1965 it was occupied by Edward Reed. By 1970, the property had been purchased by Mrs. Maribel Y. Ruff. It appears that Ruff remained in the house through the 1980s and 1990s, although directories list the occupants as Maribel Gamwell and Clark T.Ruff, building contractors. In 2004, Clark W. and Todd Y. Ruff purchased the property. Three years later it was sold to the current occupant, Ronald K. Levan Jr.
