SCHEDULE C: WETLANDS / WATERCOURSES

PROJECT ADDRESS: 1 A Plunkett Place Westport CT 06880

Due by 4:00 p.m. on _____

1. Pursuant to Section 9.6.2 relating to Soil Sample Data – the applicant/agent is to submit copy of a report by a “soil scientist” duly qualified in accordance with standards set by the U.S. Civil Service Commission, showing soil sample data, soil classifications, and a surveyed delineation of wetland soils as flagged by the scientist, including flag numbers (as requested by agency).
2. Pursuant to Section 9.6.3 relating to Biological Evaluations – the applicant/agent is to submit a list and evaluation of the plant and animal life that may be found within, depend upon, or use the wetlands and watercourses (as requested by agency).
3. Describe the anticipated impacts to wetlands and watercourses that may occur as the result of that portion of your proposal that may be located in wetlands, watercourses or their setbacks.

Water run-off from disturbed soil from excavations & Grading during construction.

4. Describe the mitigation that is being proposed as part of your application in order to minimize disturbance and pollution of wetlands and watercourses, maintain or improve water quality, and prevent destruction of or enhance the natural habitats and functions of the wetlands and watercourses.

As per the site plan:
Silt Fence will be installed around wetland line and neighbors. During construction all soil stock piles will be protected by silt fence or hay bales curb. Stock pile to be 50ft away from the wetland.

5. List the alternatives to the proposed application that were considered and the reason for their abandonment.
