**Meeting Date:** March 27, 2024

**Agenda Item:** #1

Presentation of Compo Beach Playground Renovation Project. (Discussion only)

**Background Information:**

As their Centennial Project, the Westport Rotary Club has teamed up with the Westport Young Women's League to renovate the existing playground at Compo Beach. Play By Design was hired by the Westport Rotary Club to create the renovation design and lead the Compo Beach Playground Committee through the project and community build.

The original playground was built in 1986 and was renovated in 2006. The major goals of this renovation are to improve sightlines, increase accessibility, and provide a fresh look and some new play pieces. A Community Input Open House was held on January 20<sup>th</sup>. The proposed design plan incorporates the feedback received at that Open House.

**Back-up Documents:**

## How to Use This Core Word Communication Board

1. Point to the Symbol/Word you want to communicate or teach the child.
2. Say the selected (modeled) word out loud. The communication partner will say the modeled word by asking something like, "So, you would like to slide?" Or, prompt for more direction. For example, if the individual points to play ask, "What would you like to play?" so they can point to an activity on the board or point in the direction of the activity in the playground or park area.
3. Return to the board to continue communicating. If you want to do more of a particular activity, you could point to more or again. You may want to end an activity by pointing to stop. You can also download and print out a hand-held version to use on-the-go from [aclanguelab.com/resources](http://aclanguelab.com/resources).
4. Have fun!
